Honorable Janet Nguyen
 Assembly Member
 CA 72nd District
 State Capitol
 Sacramento, CA 95814

Dear Assembly Member Nguyen,

The Orange County Sanitation District (OC San, Sanitation District) would like to congratulate you on being elected to serve as the Assembly Member for the 72nd Assembly District. As a previous member of the Orange County Board of Supervisors and California State Senator, it is reassuring to know that you will continue to be a local leader serving Orange County at the statewide level.

As you are aware, OC San is a public agency that provides wastewater collection, treatment, and recycling for approximately 2.6 million people in central and northwest Orange County. The Sanitation District is a special district that is governed by a 25-member Board of Directors comprised of 20 cities, four special districts, and one representative from the Orange County Board of Supervisors. The Sanitation District has two operating facilities that treats and recycles wastewater from residential, commercial and industrial sources producing energy, clean water and soil amendments for agricultural use.

OC San has several ongoing projects that have proven to be a tremendous benefit to the community. As we go into the new legislative session, we will be reaching out to your office to provide briefings on OC San upcoming projects and priorities, which will allow Orange County to maintain its position as a leader in the water and wastewater industry. We also hope to provide you and your staff with a virtual tour of our facility so that you can see firsthand the updated service our staff is able to provide to the residents of Orange County.

Congratulations again on your election to the Assembly, and we look forward to working with you on strengthening Orange County and its infrastructure. Additionally, please do not hesitate to reach out to us if there is anything that we can do to help advance your priorities in office that will help benefit our mutual constituents.

Sincerely,

David John Shawver
 Board Chairman
